	Dear Hal,		CC
	Deal Rai,		DS
	Reference your memorandum of 20 February, subject: Revise	اررا	
	DCID 1/5.		OP
	I think there may be some misunderstanding concerning our	$\vdash$	DE
	views about Army participation in the Strategic Warning		
	Staff. It was not our intention to ask the Army for two		AA
	additional spaces beyond what it was already contributing	Щ	DC ·
	to the National Indications Center. I regret that the		DC .
	attachments to our memorandum to you were subject to this interpretation.		DI .
	interpretation.		
	Rather we would like the Army to continue to participate #	_	70
	the SWS in the same manner that it participated in the NTO	-	
	by assigning one officer to it or by continuing the assign	-	
	ment of the officer currently on board.		<del></del>
	This would put the Army representation on the same basis a		
	that of the other services as well as State, NSA, CTA and		
	DIA, and give us a valuable on board analytic input as well	1	
	as represent the ACSI view in strategic warning matters.
